

Cryptocurrency Market Data for Custodians & Wallets

Kaiko is the leading source of cryptocurrency market data, providing businesses with industrial grade and regulatory compliant data.

We empower market participants with global connectivity to real time and historical data feeds across the world's leading centralized and decentralized cryptocurrency exchanges.

Kaiko's proprietary products are built to empower financial institutions and cryptocurrency businesses with solutions ranging from portfolio valuation to strategy backtesting, performance reporting, charting, analysis, indices, pre- and post-trade.

Smart Data

Smart Data – With more than 10 years of historical data and a coverage of 150,000 spot, futures and options over 100+ centralized and decentralized exchanges, our clients benefit from the most advanced coverage in the industry.

Custodians & wallet companies use our API for pricing and valuation through our multi-asset cryptocurrency price feeds for financial professionals. Standardized prices for all crypto assets, optimal for price display. Our Cross Prices cover 200+ fiat currency conversions available for any altcoin, no matter how liquid.

Our data can be delivered with full history or in real time, through API, gRPC, file export, or private networks (ICE, IPC, BT Radianz).
